### Employment History

- 2021–Present **Security Freelancer, Supporting Application Security.**  
Helping companies improve their security posture and secure software development practise, “left-shifting” security.
- 2019–Present **Lecturer, FH TECHNIKUM WIEN, VIENNA.**  
Web Security, Secure Operating Systems, Web Application Security
- 2019–Present **OWASP Leader, CHAPTER VIENNA.**
- 2018–2022 **Senior Security Consultant, CORETEC GMBH, VIENNA.**  
Security-Assessments, Penetration-Tests and Secure Software Development Training
- 2015–2018 **Engineer, AUSTRIAN INSTITUTE OF TECHNOLOGY.**  
Design, Implementation and Maintenance of privacy-preserving multi-cloud storage, identity management and data-sharing systems.  
Projects: Credential (Horizon 2020), DRBD4Cloud (Eurostars), Prismacloud (Horizon 2020).
- 2012–2018 **Penetration-Tester, CORETEC GMBH, VIENNA.**  
Security-Assessments and Penetration-Tests
- 2012–2015 **Software Engineering Contractor, AUSTRIAN INSTITUTE OF TECHNOLOGY.**  
Design, Implementation and Maintenance of secure multi-cloud storage systems
- 2009–2015 **Ruby on Rails Freelancer.**  
Design, Development and Maintenance of Ruby on Rails-based web applications.
- 2007–2009 **CTO, BLACKWHALE GMBH.**  
Startup working on web-based work-flow solutions.
- 2006–2012 **Software Engineering Contractor, ARC SEIBERSDORF RESEARCH GMBH**  
**AUSTRIAN INSTITUTE OF TECHNOLOGY.**  
Design, Development and Maintenance of a Quantum Key-Distribution system.
- 2001–2007 **System Administrator, INFOTECH GMBH.**  
Linux and Microsoft Windows systems.

## Technical Skills

Security Engineering	Design, Execution and Documentation of Penetration-Tests. Primary Focus upon Web-Applications as well as Android/iOS Mobile Applications. Design and Execution of training events in the Security Area.
Secure Software Engineering	Assessment, Design and Implementation of secure IT-Systems. Review and Improvement of Secure Software Development Lifecycles. Support with automated tooling in the CI/CD/SAST area. Software Development in Compliance with ÖNORM A77.00, ISO27001 and CMMC.
Software Development	Procedural, Object-Oriented and Functional Programming Paradigms. Expert level in RUBY ON RAILS, PYTHON, C, JAVA Proficient in SCALA, AKKA.IO, R, JAVASCRIPT.

## Languages

German	<b>Native language</b>
English	<b>Full professional proficiency</b>

## Certifications

since 2020	NIS-G Auditor für Kritische Infrastruktur
since 2015	Offensive Security Certified Professional

## Standardization Work

since 2017	OWASP MSTG – “Mobile Security Testing Guide” Top Contributor
2016–2019	ÖNorm A77.00 – “Sichere Webapplikationen” Austrian Standard on Development and Maintenance of Secure Web Applications

## Other Security Involvement

2019	Autor Einführung in die Web Application Security
2019	We Are Developers – Sounding Board Security
2019	NATO Locked Shields, 2nd place (Partner Event) Teamlead Web-Security, Team FH/Technikum Wien

---

## Formal Education

- since 2022 **PhD of Science**, *Security Impact of Machine Learning*, TU Wien.  
2006–2009 **DI/Master of Science**, *Software Engineering & Internet Computing*, TU Wien.  
2002–2006 **Bakk. techn.**, *Software & Information Engineering*, TU Wien.  
1996–2001 **Matura**, *EDV und Organisation*, HTBLVA Villach.

---

## Masters Thesis

- Title *Agile Provenance*  
Supervisors S. Dustdar, L. Juszczuk, H.-L. Truong  
Description Automated transparent provenance gathering and analysis within Ruby on Rails.

---

## Selection of Noteworthy Research Projects

- 2015–2018 **PRISMACLOUD**  
Design, development and maintenance of the PrismaCloud privacy-preserving multi-cloud storage prototype. One of seven projects accepted for the European Union's Horizon 2020 Research Programme.
- 2015–2018 **CREDENTIAL**  
Development of Trust Solutions for untrusted multi-cloud architectures. Another one of the seven projects accepted for the European Union's Horizon 2020 Research Programme.
- 2012–2015 **ARCHISTAR**  
Design and Development of a Multi-Cloud Storage System utilizing BFT (Byzantine Fault Tolerance) and Secret-Sharing techniques.
- 2006–2012 **SECOQC**  
Implementation of the first inter-company quantum key distribution network. I was deeply involved in design and implementation of the networking components (which were written using Linux, Python, C). After the presentation of the prototype during the SECOQC-Conference of 2009 responsible for maintenance and further feature-work.

---

## Publications – Unikernel

- 2017 Unikernels for Cloud Architectures: How Single Responsibility can Reduce Complexity, Thus Improving Enterprise Cloud Security  
Andreas Happe, Bob Duncan, Alfred Bratterud  
Presented at Complexis 2017 in Porto, Portugal
- 2016 Enterprise IoT Security and Scalability: How Unikernels can Improve the Status Quo  
Bob Duncan, Andreas Happe, Alfred Bratterud  
IEEE/ACM 9th International Conference on Utility and Cloud Computing  
2016 in Shanghai, China
- 2016 Enhancing Cloud Security and Privacy: Time for a New Approach?  
Bob Duncan, Alfred Bratterud, Andreas Happe  
INTECH 2016 in Dublin, Ireland

---

## Publications — Cloud Storage

- 2017 The Archistar Secret-Sharing Backup Proxy  
Andreas Happe, Florian Wohner, Thomas Loruenser  
SECPID/ARES 2017 in Calabria, Italy
- 2016 Exchanging Database Writes with modern Crypto  
Andreas Happe, Thomas Loruenser  
IARIA Cyber 2016 in Venice, Italy
- 2016 Malicious Clients in Distributed Secret Sharing Based Storage Networks  
Andreas Happe, Stephan Krenn, Thomas Loruenser  
Presented at Secure Protocol Workshop 2016 in Brno, Czech Republic
- 2015 ARCHISTAR: Towards Secure and Robust Cloud Based Data Sharing  
Thomas Loruenser, Andreas Happe, Daniel Slamanig  
Presented at IEEE CloudCon 2015 in Vancouver, Canada

---

## Publications — Quantum Key Distribution

- 2013 New release of an open source QKD software: design and implementation of new algorithms, modularization and integration with IPSec  
Andreas Happe, Oliver Maurhart, Christoph Pacher, Thomas Loruenser, Cristina Tamas, Andreas Poppe, Momtchil Peev et al.
- 2012 Timing synchronization with photon pairs for quantum communications  
Andreas Happe, Thomas Loruenser, Andreas Poppe, Momtchil Peev, Florian Hipp, Damian Melniczuk, Pattama Cummon, Pituk Panthong, Paramin Sangwongngam et al.
- 2012 QKD software architecture and system integration with classical communication infrastructure  
Oliver Maurhart, Christoph Pacher, Andreas Happe, Thomas Loruenser, Cristina Tamas, Andreas Poppe, Momtchil Peev
- 2009 The SECOQC quantum key distribution network in Vienna  
Andreas Happe, Momtchil Peev, Thomas Loruenser, Thomas Themel, Christoph Pacher, Oliver Maurhart, Andreas Poppe, Anton Zeilinger, Cristina Tamas, Edwin Querasser et al.
