### Employment History

- 2015–Present **Engineer**, AUSTRIAN INSTITUTE OF TECHNOLOGY.  
Design, Implementation and Maintenance of privacy-preserving multi-cloud storage, user authentication and data-sharing systems. Attached to two European Union Horizon 2020 Research Projects: “PrismaCloud” and “Credentials”
- 2012–Present **Senior Security Engineer**, CORETEC GMBH, VIENNA.  
Security-Assessments and Penetration-Tests
- 2009–Present **Ruby on Rails Freelancer**.  
Design, Development and Maintenance of Ruby on Rails-based web applications.
- 2012–2015 **Software Engineering Contractor**, AUSTRIAN INSTITUTE OF TECHNOLOGY.  
Design, Implementation and Maintenance of secure multi-cloud storage systems
- 2006–2012 **Software Engineering Contractor**, ARC SEIBERSDORF RESEARCH GMBH  
AUSTRIAN INSTITUTE OF TECHNOLOGY.  
Design, Development and Maintenance of a Quantum Key-Distribution system.
- 2007–2009 **CTO**, BLACKWHALE GMBH.  
Startup working on web-based work-flow solutions.
- 2001–2007 **System Administrator**, INFOTECH GMBH.  
Linux and Microsoft Windows systems.

### Technical Skills

- Security Assessment, Design and Implementation of IT-Security-Systems.  
Engineering Design, Execution and Documentation of Pen-Tests.  
Focus upon manual Application-Level Web Penetration-Tests.  
Automated testing with CAPYBARA, ACUNETIX, SQLMAP.PY, etc.
- Software Procedural, Object-Oriented and Functional Programming Paradigms.  
Development Expert level in RUBY ON RAILS, PYTHON, C, JAVA, SCALA, AKKA.IO.  
Unit Testing with RSPEC, MINITEST, JUNIT, CTEST.  
Acceptance Testing with CAPYBARA and CUCUMBER.

---

## References

Due to my work's sensitive nature please contact the following references for further information:

- Pen-Tests    Manfred Kirisits, CEO CoreTEC IT Security GmbH  
mk@coretec.at, +43-676-841-786-310
- Ruby on Rails    Peter Greiner, Executive Board Burgstaller-Steiner Immobilien GmbH  
peter.greiner@burgstaller-steiner.at, +43-650-473-4637
- Java, Clouds    Thomas Lorünser, Senior Engineer and Project Coordinator for the European Union  
H2020 "Credential" and "PrismaCloud" Research Projects, Austrian Institute of  
Technology  
thomas.loruenser@ait.ac.at
- C, Linux    Thomas Themel, Colleague during European Union's FP7 SECOQC project, now  
Google Inc.

## Selection of Noteworthy Projects

- since 2015    PRISMACLOUD  
Design, development and maintenance of the PrismaCloud privacy-preserving multi-cloud storage prototype. One of seven projects accepted for the European Union's Horizon 2020 Research Programme.
- since 2015    CREDENTIAL  
Development of Trust Solutions for untrusted multi-cloud architectures. Another one of the seven projects accepted for the European Union's Horizon 2020 Research Programme.
- since 2013    MULTIPLE HIGH-PROFILE WEB-APPLICATION BREACHES  
Discovered security vulnerabilities in multiple high-profile web applications (Insurance and Banking industry, Governmental sector). Involved in fixing and preventing future data leaks.
- 2013–2015    "IMMOSOFT"  
Lead-Programmer in a Real-Estate Broker software project. An existing c#/.net application was deemed unmaintainable and its functionality is migrated to an Ruby on Rails web application. Special focus lies on maintainability and automated testing to prevent a similar fate.
- 2012–2015    ARCHISTAR  
Design and Development of a Multi-Cloud Storage System utilizing BFT (Byzantine Fault Tolerance) and Secret-Sharing techniques.
- 2006–2012    SECOQC  
Implementation of the first inter-company quantum key distribution network. I was deeply involved in design and implementation of the networking components (which were written using Linux, Python, C). After the presentation of the prototype during the SECOQC-Conference of 2009 responsible for maintenance and further feature-work.

---

## Languages

German **Native language**  
English **Full professional proficiency**

---

## Formal Education

since 2014 **ongoing PhD studies**, *Software Engineering & Internet Computing*, TU Wien.  
2006–2009 **DI/Master of Science**, *Software Engineering & Internet Computing*, TU Wien.  
2002–2006 **Bakk. techn.**, *Software & Information Engineering*, TU Wien.  
1996–2001 **Matura**, *EDV und Organisation*, HTBLVA Villach.

---

## Masters Thesis

Title *Agile Provenance*  
Supervisors S. Dustdar, L. Juszczuk, H.-L. Truong  
Description Automated transparent provenance gathering and analysis within Ruby on Rails.

---

## Publications

- 2015 ARCHISTAR: Towards Secure and Robust Cloud Based Data Sharing  
Thomas Loruenser, Andreas Happe, Daniel Slamanig  
Accepted for IEEE CloudCon 2015 in Vancouver, Canada
- 2013 New release of an open source QKD software: design and implementation of new algorithms, modularization and integration with IPSec  
Andreas Happe, Oliver Maurhart, Christoph Pacher, Thomas Loruenser, Cristina Tamas, Andreas Poppe, Momtchil Peev et al.
- 2012 Timing synchronization with photon pairs for quantum communications  
Andreas Happe, Thomas Loruenser, Andreas Poppe, Momtchil Peev, Florian Hipp, Damian Melniczuk, Pattama Cummon, Pituk Panthong, Paramin Sangwongngam et al.
- 2012 Quantum Key Distribution Software maintained by AIT  
Andreas Happe, Oliver Maurhart, Christoph Pacher, Thomas Loruenser, Gottfried Lechner, Cristina Tamas, Andreas Poppe, Momtchil Peev et al.
- 2012 QKD software architecture and system integration with classical communication infrastructure  
Oliver Maurhart, Christoph Pacher, Andreas Happe, Thomas Loruenser, Cristina Tamas, Andreas Poppe, Momtchil Peev
- 2009 The SECOQC quantum key distribution network in Vienna  
Andreas Happe, Momtchil Peev, Thomas Loruenser, Thomas Themel, Christoph Pacher, Oliver Maurhart, Andreas Poppe, Anton Zeilinger, Cristina Tamas, Edwin Querasser et al.
